EDUCATION

Full Stack Developer,
Ironhack IT School 🔗
03/2023 - 06/2023

Full-stack web developer program proficient in front-end and back-end development creating responsive web applications, integrating APIs, managing databases and staying updated with the latest industry trends.

Blockchain Technology,
Berkeley University 🔗
02/2020 - 05/2020

The course covers key topics in blockchain, including distributed systems, consensus mechanisms, cryptoeconomics, proof-of-stake, bitcoin and blockchain applications, enterprise implementations (Quorum, Ripple, Tendermint, HyperLedger), scaling challenges, government regulations, blockchain ventures, and a future thought experiment.

Ground Operations Management,
International Air Transport Association (IATA)
03/2017 - 02/2018

Complete IATA Ground Operations Management with AHM Course, which has provided me with comprehensive knowledge and essential skills for effectively managing and overseeing airline stations in various operational setups, including self-handled and outsourced environments.

B.A. in Tourism Business and Activities,
University of Malaga
10/2001 - 07/2004

Comprehensive program covering tourism management, business administration, and hospitality operations. Developed skills in tourism economics, sustainable tourism, and event management. Equipped for roles in tourism organizations, hotels, travel agencies, and destination marketing.
